## Make a colorful bowl using confetti!

### Materials Needed

- Confetti – buy confetti or make your own by cutting colorful paper into tiny pieces
- 1 balloon
- Mod Podge Gloss
- Sponge brush
- Scissors
- Vase, cup or something else to hold the balloon while you work

### Instructions

1. Inflate the balloon to desired size, then set it onto a vase so it's easier to work with. Your confetti bowl will be half the size of your balloon.

2. Add Mod Podge to the TOP half of the balloon with a sponge brush, then sprinkle confetti all over the wet Mod Podge. Use a lot of confetti!
3. Remove the balloon from the vase and hold it so you can sprinkle confetti on all the Mod Podge.
4. Place back onto the vase and let it dry 8-10 hours, then add another coat of glue and confetti. Repeat until the desired thickness of your bowl – at least 3 times. Let it dry between each layer of confetti.
5. When you have enough confetti, add several coats of Mod Podge on top of the confetti until you achieve a thick coating (about 3 - 4 coats for stability).
6. Let it dry for 10-12 hours.
7. Pop the balloon and remove it to reveal your confetti bowl.
8. Trim the edges of your bowl with scissors if you wish.

(Please note: This bowl is not food safe.)

Enjoy your confetti bowl!
